

PLUG 12/24V

No adapter required.

The universal plug is a Swedish invention that has also been patented as a proof of its ingenuity. What is unique is that no adapter is needed to switch between a cigarette socket (12 V) and a 12 mm socket (24 V). The manufacturing takes place in Sweden in order to ensure good quality.

- Universal plug
- Fits both cigarette- and 12 mm-sockets
- Easily accessible fuse placed behind the blue cap
- Cord anchorage and cord flexing protector
- Easily assembled

Four simple steps to connect the cable:

Article number:	
Universal plug	139010
Technical information:	
Fuse	10 A
Voltage	12/24 VDC
Weight	32 g
Length	117 mm
